Determining Concrete Strength for Control of Concrete in Structures. 285
By B. G. Skramtajew
Discussion (from *Supplement* to Sept. 1938 Journal).....304–1

Vacuum Concrete..... 305
By William F. Lockhardt
Discussion (from *Supplement* to Sept. 1938 Journal).....320–1

Flat Slabs and Supporting Columns and Walls Designed as Indeterminate Structural Frames..... 321
By Henry D. Dewell and Harold B. Hammill
Discussion (from *Supplement* to Sept. 1938 Journal).....344–1

Circular Flat Slabs, With Central Column..... 345
By Joseph A. Wise
Discussion (from *Supplement* to Sept. 1938 Journal).....352–1

A Reduction Method for the Analysis of Continuous Beams and Open Frames..... 353
By Miklos Hetenyi
Discussion (from *Supplement* to Sept. 1938 Journal).....364–1

Current Reviews..... 365

(From March-April 1938 JOURNAL)

Future Policies of the Institute..... 377
By J. C. Pearson

Factors Which Influence the Durability of Concrete Stave Silos..... 381
By Dalton G. Miller
Discussion (from *Supplement* to Sept. 1938 Journal).....400–1

The Resistance of Reinforced Concrete Columns to Eccentric Loads.... 401
By F. E. Richart and T. A. Olson
Discussion (from *Supplement* to Sept. 1938 Journal).....420–1

Construction of the San Jacinto Memorial..... 421
By C. A. Bullen

Resistance of Cement to Attack by Sea Water and by Alkali Soils..... 433
By Thomas E. Stanton, Jr. and Lester C. Meder
Discussion (from *Supplement* to Sept. 1938 Journal).....464–1

Reinforced Concrete Design Practice..... 465
By Albert Smith
Discussion (from *Supplement* to Sept. 1938 Journal).....472–1

Problems Involved in Mass Concrete Construction and Methods of Attack by the Committee..... 473
By Raymond E. Davis

Cracking in Mass Concrete..... 477
By R. F. Blanks, H. S. Meissner and C. Rawhouser

Temperatures and Stresses in Mass Concrete..... 497
By Roy W. Carlson

Notes on Existing Rigid Frame Bridges in the United States..... 517
By D. H. Pletta
Discussion (from *Supplement* to Sept. 1938 Journal).....524–1

Current Reviews..... 525

(From May-June 1938 JOURNAL)

A Challenge—Shorten the Lag Between Research and Practice..... 541
By Frank T. Sheets

Concrete Curing Compounds 549
By H. S. MEISSNER and S. E. SMITH
Discussion (from *Supplement* to Sept. 1938 JOURNAL) 560–1

Field Survey of Mass Concrete 561
By F. R. MCMILLAN

Some Time-Temperature Effects in Mass Concrete 573
By J. W. KELLY
Discussion (from *Supplement* to Sept. 1938 JOURNAL) 588–1

On the Work of the Committee on Architectural Concrete of the Exposed Aggregate Type and the Thomas Alva Edison Memorial Tower 589
By JOHN J. EARLEY

Should the Type of Indeterminate Problem Determine Its Method of Solution? 605
By G. A. MANEY
Discussion (from *Supplement* to Sept. 1938 JOURNAL) 624–1

Tests of Rigid Frame Bridges 625
By WILBUR M. WILSON and RALPH W. KLUGE
Discussion (from *Supplement* to Sept. 1938 JOURNAL) 648–1

Principles of Concrete Shell Dome Design 649
By ERIC C. MOLKE and J. E. KALINKA
Discussion (from *Supplement* to Sept. 1938 JOURNAL) 708–1
